Wagner

WIRE HARNESS MANUFACTURER

EXCEEDS YOUR EXPECTATIONS

HISTORY AND MISSION

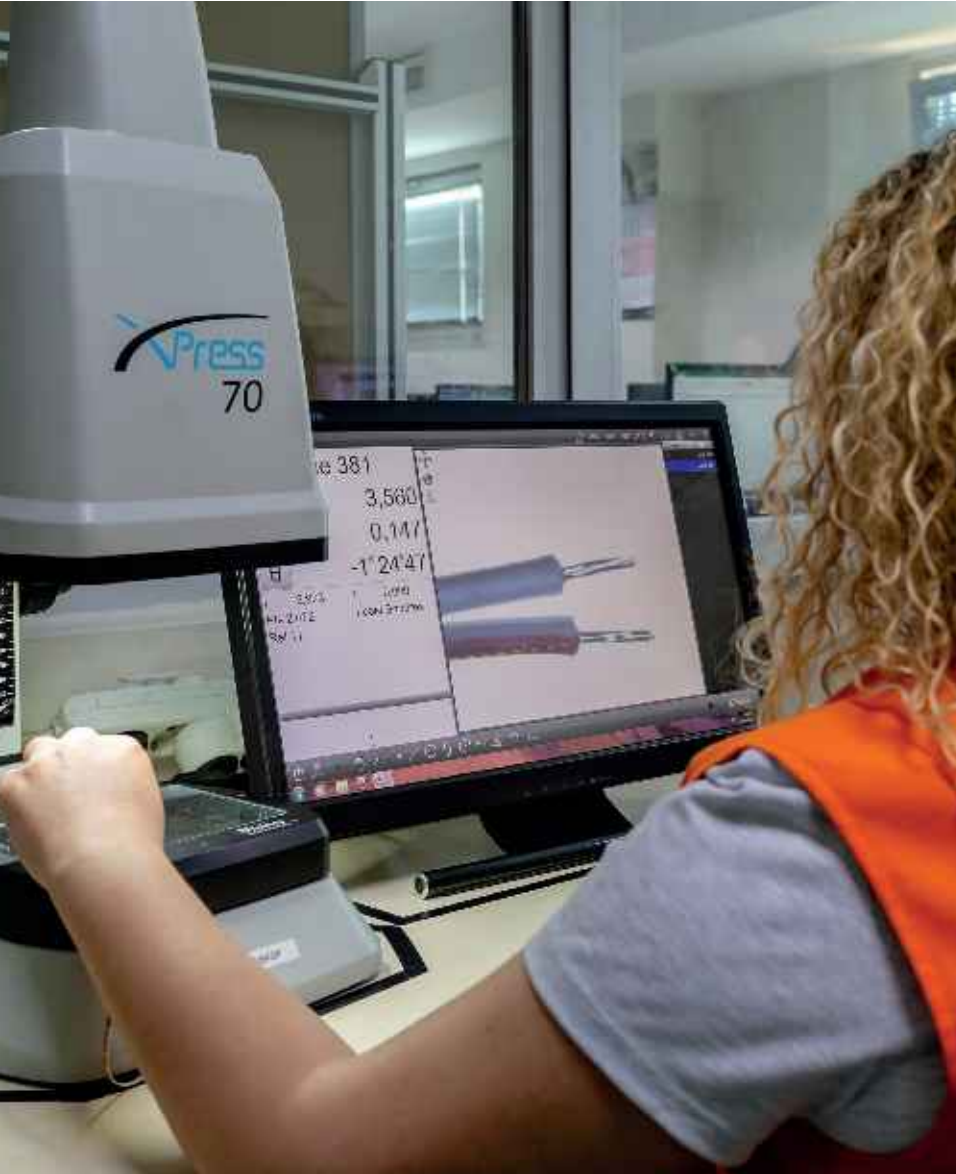

Wagner Kablo was founded in 1992 to manufacture high quality wire harness products especially for the need of the automotive sector. The structure of majority foreign shareholding in the company has been reduced over the years and it became essentially a Turkish owned company. However the main philosophy and the mission of the company has remained unchanged since the beginning. In the past thirty years, we have always tried to become an exemplar and leader company in our region and we enlarged our activities to a growing geographical span.

We are exporting to 25+ countries in 4 continents. We are serving not only to automotive but other areas of the industry as well. Each year we are producing and selling about 50 million wire harness sets. Currently, 1 out of every 5 car produced has a wire harness from Wagner Kablo.

We are operating in 14.400 m² closed area and with about 700 fellow personnel. Our guiding principles of continuous improvement, sustainable growth, healthy financial structure have been so far achieved and it will be of our primary target to keep in the future as well.

OUR QUALITY POLICY

The main pillars of quality Policy of Wagner Kablo are Process Based Management, Lean Company, Continuous Improvement, Satisfaction of Stakeholders and Respect to Environment. Target is "Zero Defect".

Right after the foundation Wagner Kablo has given the first priority to establish a sustainable quality system. As a result the company has received the ISO 9002 certificate from DQS Germany shortly after the start of the production in June 1995. In June 2000 it has received QS-9000 certification from German DQS. Wagner Kablo holds ISO/TS 16949:2002 certificate since 2003, as of 2016, ISO/TS 16949:2022 revised to IATF 16949 and finally obtained ISO 14001 in 2009.

Due to the importance of the projects which are involved and as a necessity of the quality system, the company is continuously subject to customer audits. The results of those audits have been usually success evaluating Wagner Kablo mostly as "A Grade Supplier".

WAGNER FAMILY

The success of Wagner Kablo lies mainly upon her honest, hard working, industrious, improvement focused people. We have an employment policy which is based on zero discrimination on race, language, sex, religion and respect of laws and regulations. Our employees are accepted via tests to judge their abilities and afterwards they are continuously trained.

BUILT IN QUALITY

OUR JOURNEY TO LEAN

Wagner Kablo has been implementing "Lean Manufacturing System" since September 2007. As of today, more than 95% of the production lines were converted into Lean Production System. Lean Production, originally generated from "Toyota Production System", can be described as eliminating every step, every action and every practice that does not create a value add. The focus is on modelling processes to be more efficient with also improving the quality.

Adopting lean manufacturing, has not only improved the efficiency but also, eliminated the unnecessary stock or semi-finished products, creating an extra space in the production area.

Wagner Kablo has a goal of becoming a true "Lean Company" crediting the importance of continuous improvement, the company also implemented KANBAN, KAIZEN, 5S, YOKOTEN applications, Lean app.in/industry 4.0, Material Planning/pull in system and Digitalization.

Wagner Kablo encourages its personnel to take active role in KAIZEN. As a result of this system, the number of applicable suggestions, have been increased sharply, compared to the previous years.

After the manufacturing processes we have started Lean in Administrative processes as well. Our target is to become a full lean company and to implement lean chain from Suppliers to the Customers.

OUR PRODUCTS

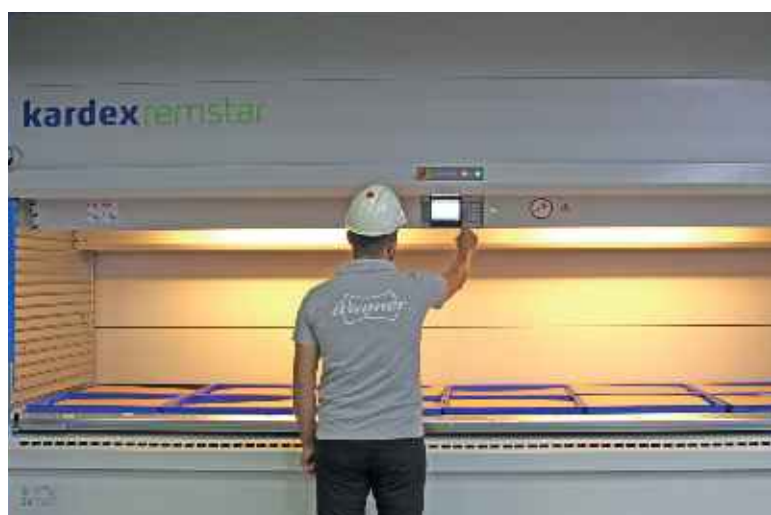

Wagner Kablo has a wide product range in the Automotive, white goods, brown goods and general industry sectors. Wagner Kablo apart from her home Country also exports cable harnesses for customers in four continents including Germany, Czech Republic, U.K., Netherlands, Switzerland, USA, Mexico, Spain, Malaysia, China, Poland, Tunisia, Canada, France and Ireland where the end-users are prominent companies including BMW, MERCEDES, VW, AUDI, LAMBORGHINI, ROLLS ROYCE, JAGUAR, VOLVO, PEUGEOT, CITROEN, FORD, ASTON MARTIN, LANDROVER, RENAULT, PORSCHE, ERGOLINE, B/S/H, DAIMLER, FIAT, FERRARI, MAN, DODGE, BENTLEY, MITSUBISHI, OPEL, CHEVROLET, NISSAN, TOYOTA.

We have a very wide range of products in Automotive;

- Top column module wire harness
- Mirror wire harness,
- Lighting wire harness (front rear light, headlamp),
- Electronic transmission unit wire harness,
- Seat adjustment wire harness,
- Gear Shift wire harness,
- Wiper wire harness,
- Board computer wire harness,
- Signal lever harness,
- Speed and cruise control wire harness,
- Adaptive cruise control wire harness,
- Display unit wire harness
- Heating wire harness,
- Engine control unit wire harness,
- Convertible top control wire harness

Our Product Range in White goods, Brown goods and General industry;

- Refrigerator display wire harness,
- Cooling control wire harness,
- Solarium device wire harness,
- Home medical device wire harness

ENVIRONMENT

It is our most important humanitarian duty to keep the environment same or more improved for next generations. As one of the main element of three pillars of our quality policy, we have been given utmost care to protect our nature and earth. The ISO 14001 Certificate will be only a smallest indication towards what we could do in this subject. Our company has been primarily focused to educate our employees in environmental consciousness. The Wagner employees have promised that they themselves will serve as teachers in this scope.

To help to reduce the Carbon footprint; we have made investments to the digitalization to reduce paper usage in the offices and the production areas, installed PV systems and we used in the factory LED lighting to reduce electricity consumption. Additionally the clean water consumption was reduced and we have taken precautions to safely deposit and or discharge chemical wastes no matter they are already quite low in our factory. All our products sent to our Customers have RoHS Certificates namely they contain no chemically hazardous material. Not only for our own personnel, every year we also make campaigns to plant trees in our neighbor companies.

LOCATION AND CONNECTIONS

Antalya Free Zone is located 10 kms to Antalya City Center and 25 kms to International Airport. It is situated at a convenient point for air, land and sea transport. The climate is mild Mediterranean allowing comfortable working conditions for 12 months. Our factory has an A/C and maintains always clean working area which is usually rather important for our field.

Free Zone has special tax advantages for the investors. Besides, the attractive climatic conditions of the region usually makes no difficult for the companies to find qualified people. The nearby located Mediterranean University brings also support when needed.

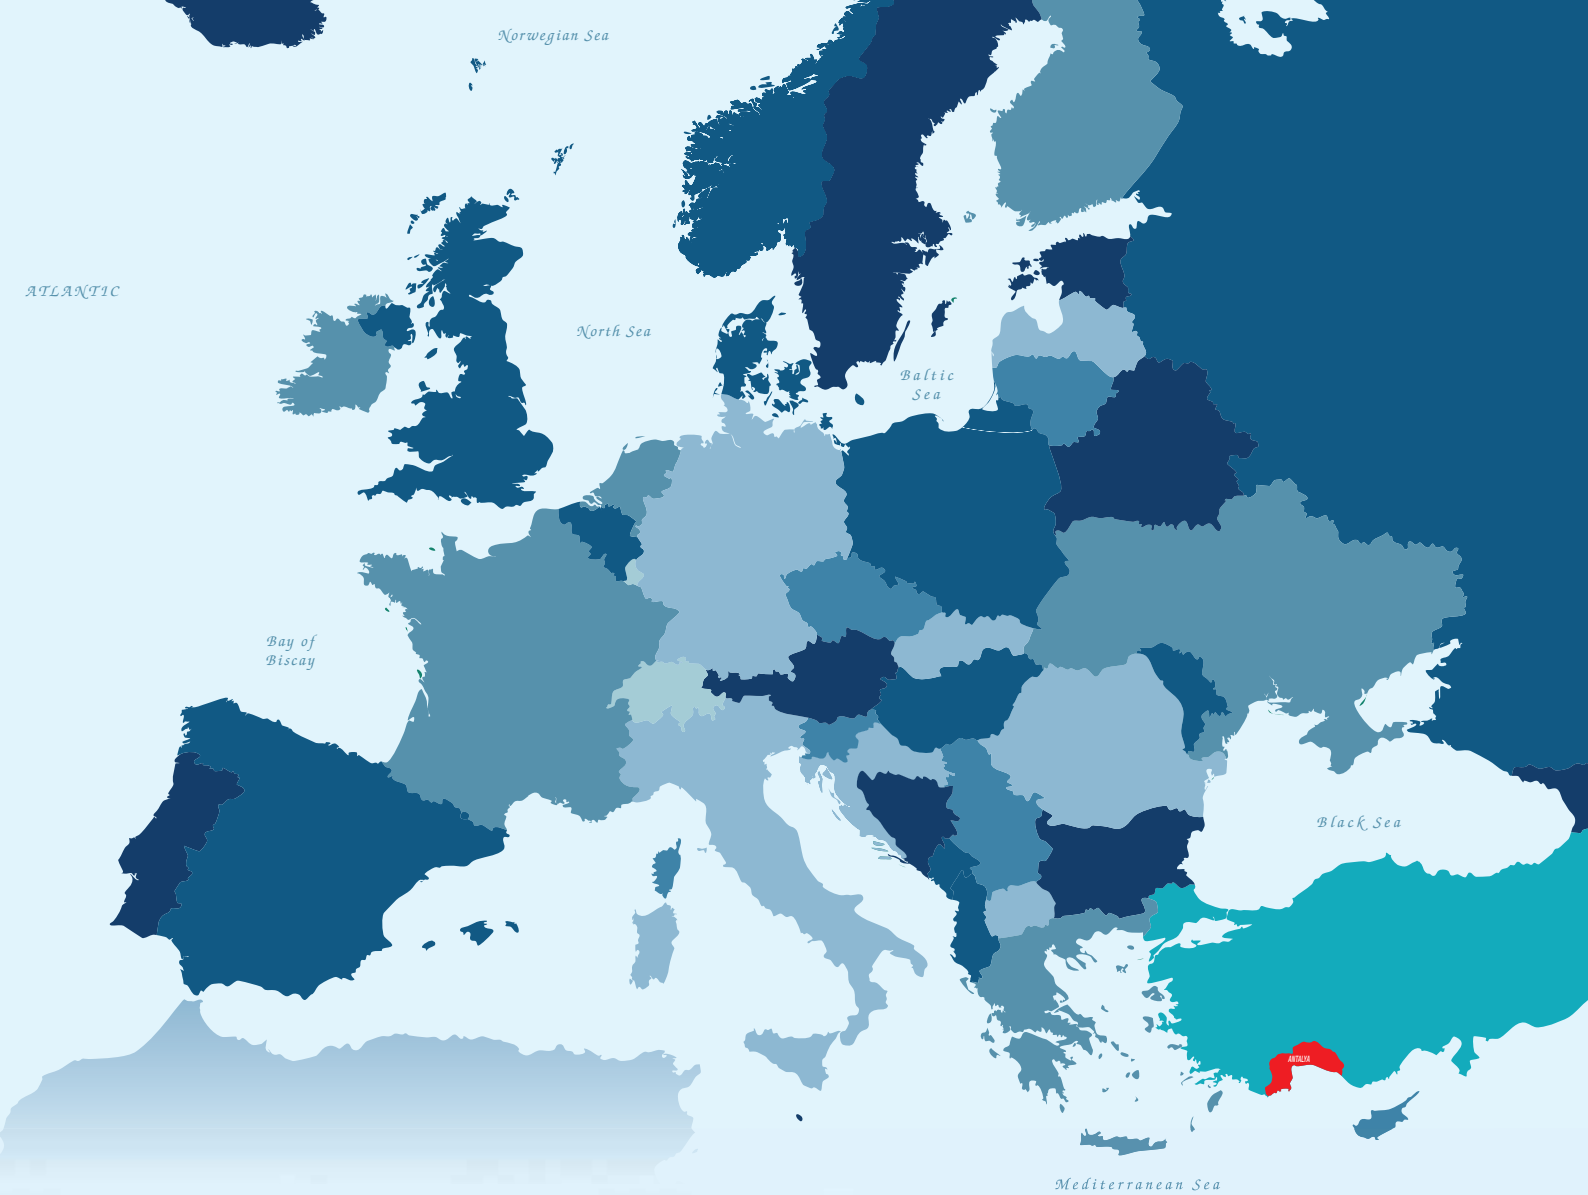

Antalya Airport is one of the biggest airport in whole Europe and has over 20 direct connections only to cities in Germany. There are Daily flights during the whole year to cities such as Frankfurt, Munich, Düsseldorf, Stuttgart, Vienna, Hamburg, Amsterdam and many others. In case of emergency we have possibilities to deliver within 24-48 hours. There are high standard hotels and other accommodation possibilities in and around Antalya city and therefore this will bring particular advantage for our business partners during their visit.
